Department of Justice Investigation Update

This report provides information regarding the United States Department of Justice (DOJ) investigation into the Phoenix Police Department.

Summary

Since the DOJ announced its investigation into the Phoenix Police Department on Aug. 5, 2021, staff have continued to pledge their support and participation. See prior updates on June 30, 2022, January 19, 2023, and March 23, 2023.

The investigation focuses on five areas:

- Excessive force in violation of the Fourth Amendment;
- Discriminatory policing that violates the Constitution and federal law;
- Retaliation against those engaged in First Amendment-protected activities;
- Violations of the Americans with Disabilities Act (ADA) related to behavioral health disabilities;
- Violations of the rights of individuals experiencing homelessness with regards to the disposal of property.

Louisville

The DOJ launched its pattern or practice investigation into the Louisville Metro Police Department (LMPD) in April 2021. The DOJ stated that the investigation would assess all types of force used by LMPD officers, including:

- Use of force on individuals with behavioral health disabilities; or
- Individuals engaged in activities protected by the First Amendment;
- Whether LMPD engages in discriminatory policing; and
- Whether it conducts unreasonable stops, searches, seizures, and arrests, both during patrol activities; and
- In obtaining and executing search warrants for private homes.

The investigation will include a comprehensive review of LMPD policies, training, and supervision, as well as LMPD's systems of accountability, including misconduct complaint intake, investigation, review, disposition, and discipline.

Findings

On March 8, 2023, the DOJ announced findings that there was reasonable cause to believe the LMPD and Louisville/Jefferson County Metro Government (Louisville Metro) engaged in a pattern or practice of conduct that violates the United States Constitution and federal law, specifically finding that the LMPD:

- Uses excessive force, including unjustified neck restraints and the unreasonable use of police dogs and tasers;
- Conducts searches based on invalid warrants;
- Unlawfully executes search warrants without knocking and announcing;
- Unlawfully stops, searches, detains, and arrests people during street enforcement activities, including traffic and pedestrian stops;
- Unlawfully discriminates against Black people in its enforcement activities;
- Violates the rights of people engaged in protected free speech critical of policing; and
- Along with Louisville Metro, discriminates against people with behavioral health disabilities when responding to them in crisis.

The DOJ also identified deficiencies in the LMPD's response to investigations of domestic violence and sexual assault, and that deficiencies in policies, training, supervision, and accountability contribute to the LMPD and Louisville Metro's unlawful conduct. The findings also include 36 high-level Recommended Remedial Measures. Louisville Metro and the LMPD entered an Agreement in Principle (AIP) with the DOJ committing to resolve the DOJ's findings through a court-enforceable consent decree with an independent monitor, rather than contested litigation. Louisville Metro and the LMPD's execution of the AIP is not an admission of liability. Following the announcement, the DOJ investigations team met with LMPD leadership, faith-based leaders, union representatives, the judiciary, and held a virtual public meeting. The DOJ confirmed its representatives will return in a month to obtain feedback from those groups on the consent decree. Louisville leadership reported that there has been increased media attention and an increase in public record requests related to the specific incidents cited in the findings report.

What's Next

The City launched a financial research survey. The City has only received one response to the survey that was emailed to seven cities. Staff have extended the deadline and are encouraging cities to respond. The DOJ identified the Community Assistance Program and the Field Training Officer program as their focus for the April 2023 site visit. Staff coordinated the requested interviews and ride-alongs.

Weekly Community Spread Benchmark Report

This report provides City Council with an update regarding the status of the current community spread benchmark indicators tracked by the City of Phoenix related to COVID-19 as requested at the Dec. 2, 2020 Formal Meeting. This information represents the latest data released by the Centers for Disease Control and Prevention (CDC) on April 20, 2023.

Summary

The Maricopa County Department of Public Health has transitioned from Community Transmission Risk indicators to the new CDC Community Level reporting, which reports at the County level and are rated as Low, Medium or High. The weekly report now follows the CDC Community Level reporting.

The CDC Community Level is determined by the higher of the inpatient beds and new admissions indicators, based on the current level of new cases per 100,000 in the past seven days. Please note that, in the event New Cases per 100,000 exceeds 200, the community level can be no lower than Medium, regardless of the inpatient bed use or hospital admissions per 100,000.

The attached memo (**Attachment A**) provides an indicator dashboard of the CDC Community Level for Maricopa County. The current CDC Community Level for Maricopa County is **Low**.

The Weekly Community Spread Benchmark Report will continue until the federal Public Health Emergency related to the COVID-19 pandemic ends on May 11, 2023.

SB1184 - Municipal tax exemption; residential leases**Sponsor**

Sen. Steve Kaiser (R)

Summary

Beginning January 1, 2024, municipalities and other taxing jurisdictions would have been prohibited from levying a transaction privilege, use, or other similar tax or fee on the business of renting or leasing residential property. Some exceptions. By January 1, 2024, the landlord of real property that is rented or leased for residential purposes and that is located in a municipality or other taxing jurisdiction that levies a transaction privilege tax on the business of renting or leasing residential property would have been required to reduce the amount of rent due by an amount equal to the difference caused by the elimination of the transaction privilege tax on the business of renting or leasing residential property. The Arizona Department of Revenue would have been required to electronically notify each residential rental transaction privilege tax licensee of these provisions. From January 1, 2024 through June 30, 2025, the State Treasurer would have been required to distribute proportionately for each month \$14,945,600 from the portion of the revenues derived from transaction privilege taxes that is not designated as the distribution base to the municipalities that levied a transaction privilege tax on renting or leasing real property for residential purposes during FY2021-22, based on the average amount that the municipality collected from that tax during FY2021-22. Also, municipalities would have been required to use monies paid from revenues collected from a remote seller in the retail transaction privilege tax classification and paid to the municipality as state shared revenue for public safety before any other municipal purpose. Would have applied to tax periods beginning January 1, 2024 and after. AS VETOED BY GOVERNOR. In her veto message, the Governor stated that lowering housing costs is a priority, but that this bill lacks any enforceable mechanism to ensure relief will be provided to renters and includes an appropriation outside of a comprehensive budget agreement.
