

ARIZONA TAX MATRIX FOR HOTEL/MOTEL LODGING INDUSTRY

NOTES

- o All footnotes pertain only to the referring line item in this matrix. Footnotes apply to state, county, and city jurisdictions unless otherwise noted.
- o For any income from any activity not included in this matrix, please contact the Arizona Department of Revenue and the appropriate city(ies) to receive a determination on taxability.
- o Broker provisions of Model City Tax Code Regulation 100.1 require that the hotel and the third party vendor are responsible for municipal taxes based on the price to the consumer at the taxable location for the third party vendor. Neither party is relieved of this responsibility until proof of payment of the tax has been made.
- o In this document, "payment (including commissions) received" includes revenues received on a cash basis or earned on an accrual basis.
- o To identify cities choosing individual Model Options or Local Options shown in this matrix, please review the Option Charts page at www.modelcitytaxcode.org or contact the city directly.

DEFINITIONS

Commission – An amount paid to or retained by a hotel pursuant to an agreement with a third party provider of goods or services at a set fee, percentage or other compensation, where the fee, percentage or other compensation is not a commercial lease or rental, or a mark-up charged to the guest. Commissions may be based on charges by the hotel to guests or charges by the third party provider to the hotel guests. If the agreement is not in writing, the burden is on the hotel to provide sufficient evidence to substantiate a right to the deduction. Although the commission may not be taxable to the hotel, the commission is income to the third party provider of goods, services or activities and may be subject to tax.

Destination Services – The acts undertaken by a person engaged in business under the transient lodging classification, at the request of a guest, to arrange, plan or coordinate the provision of goods and/or services by third party suppliers, operators or service providers to the guest; the guest may obtain some or all of the goods and/or services arranged as a destination service at a location other than the business location of the arranging hotel.

Folio - Document that summarizes or itemizes guest charges. Please refer to A.A.C. R15-5-2004(C).

Guest - The term "guest" as used in the Matrix is limited to a person, who either at the person's own expense or at the expense of another, rents a room at a lodging facility. For purposes of this definition, the term "room" includes a banquet room, meeting room or lodging room.

Hotel/ Vendor owned equipment – Includes personal property owned or leased by the hotel or vendor, as applicable.

Mark-up – An amount charged by the hotel to its guest in excess of the hotel's cost of goods or services obtained from a third party provider other than a commission, whether shown as a separate charge or included in the hotel's billing to the customer for goods or services.

Off-Premise – A separate business with no equipment, personnel or other presence at the hotel other than picking up or dropping off guests or property.

On-Premise – A separate business providing goods or services to hotel guests other than an Off-Premise provider.

Pass-through transaction – A transaction where goods or services are provided to a guest by a third party and the charges are itemized separately on the folio for the guest's convenience. The hotel collects the charges and remits the entire amount to the third party, without mark-up by the hotel. The hotel must maintain proof that an unrelated third party provided goods or services to the guest, and that the revenue was purely pass-through in nature. A commission may be retained by or paid to the hotel on a pass-through transaction.

Package – A "package" transaction means a combination of goods and services inclusive of applicable tax sold for a single lump sum price. In its books and records, the hotel is required to make a reasonable allocation of revenue among or between the specific goods and services sold and the applicable tax. An example of a package is: guest room, dinner for two, and two spa sessions for \$500 (no tax is separately stated). See A.A.C. R15-5-2004(C) and Line 9 of the Matrix.

Spa Usage Fee – A daily or weekly fee that grants the right to use the spa facility. Such fee does not include separate charges for nontaxable services.

**ARIZONA TAX MATRIX FOR HOTEL/MOTEL LODGING INDUSTRY
FOOTNOTES**

All footnotes pertain only to the referring line item in this matrix. Footnotes apply to state, county, and city jurisdictions unless otherwise noted.

- 1 Whether an item appears on the hotel folio or is paid for separately does not affect the taxability of the item.
- 2 A gift shop need not be a standalone shop. Rather, these items may be sold at the front desk, etc. and the taxability will remain the same.
- 3 Pass-through transactions are not taxable for state, county & municipal tax purposes. See "Definitions" for the definition of a pass-through transaction and discussion of broker provisions of Model City Tax Code Regulation 100.1 in "Notes."
- 4 For a comprehensive definition of food for home consumption, see A.A.C. R15-5-1860.
- 5 If a hotel contains a restaurant that is a separate legal entity and the restaurant purchases and prepares the food that is given free of charge by the hotel to the transient lodger, and the restaurant is paid by the hotel, the restaurant is subject to transaction privilege tax on the amounts received from the hotel. If the hotel does not pay the restaurant, the restaurant is subject to use tax on the food. A restaurant that provides complimentary food to customers as a business strategy to increase sales is not subject to use tax on the food or beverage. If, however, the food is given away for a purpose unrelated to the restaurant business, the restaurant is subject to use tax on the purchase price of the food and beverage.
- 6 Sales of food and non-alcoholic beverages by a business under the retail classification to a transient lodging business that will provide the items to guests at no additional charge are not subject to state tax (municipal taxable). However, sales of food and non-alcoholic beverages by a restaurant or caterer under the restaurant classification to a transient lodging business are taxable even if the hotel will furnish the food to guests at no additional cost.
- 7 For state tax purposes, A.R.S. § 42-5061(A)(46) exempts "[t]angible personal property sold to a person engaged in business and subject to tax under the transient lodging classification if the tangible personal property is a personal hygiene item or articles used by human beings for food, drink or condiment, except alcoholic beverages, which are furnished without additional charge to and intended to be consumed by the transient during the transient's occupancy." Thus, a hotel may not purchase alcohol tax exempt under A.R.S. § 42-5061(A)(46). However, A.R.S. § 42-5061(A)(51) exempts "[s]ales of any spirituous, vinous or malt liquor by a person that is licensed in this state as a wholesaler by the department of liquor licenses and control pursuant to title 4, chapter 2, article 1." Therefore, the sale of alcohol by a wholesaler to a licensed hotel or motel is not subject to tax. The hotel or motel does not need to purchase such alcohol as a sale for resale. However, there is no use tax exemption for the use or consumption of alcohol purchased from a wholesaler. Therefore, subsequent sales of such liquor at its restaurant or bar subjects a hotel to transaction privilege tax under the restaurant classification and subsequent use of such liquor at a complimentary happy hour subjects a hotel to use tax. Please see Transaction Privilege Tax Ruling TPR 02-1 for more examples.
- 8 The room is subject to tax under the commercial lease classification. The separately stated food and beverage is subject to tax under the restaurant classification.
- 9 For state & county purposes, if the hotel sets up rigging, cabling and lights, and hotel employees operate and control the equipment, the transaction is a nontaxable service when separately billed. If the guest operates, controls, or has the right to operate and/or control the equipment, the transaction is taxable as personal property rental. For municipal purposes, the separate billing is taxable as rental or license for use of personal property. Does not apply to lump sum billing.
- 10 For a comprehensive list of items that do and do not qualify as items related to personal hygiene, see TPR 95-18.
- 11 For state purposes, see A.A.C. R15-5-154. For municipal purposes, see Model City Tax Code Section 115 and Regulation 115.1.
- 12 If the charge assessed represents internet access only, rather than the rental of a computer, see Line 20.
