		2023	2024	2025	2026
Peds (0 - 5)	Bathtub	1	1		
	Hot Tub		1		
	Pool	2	11	1	2
Adults (18+)	Bathtub		1	1	2
	Canal			2	1
	Hot Tub				2
	Pond/Lake	1			1
	Pool	7	10	9	10
Grand Total		11	24	13	18

Information included when available in patient chart.

Fatality numbers include those patients who were deceased upon fire personnel's arrival, and where available, those patients who died later at the hospital after the transfer of care.

Historically the Phoenix Fire Department has utilized data from the Computer Aided Dispatch (CAD) system to produce statistics. CAD data represents what 911 callers and firefighters tell Fire Department dispatchers. With the implementation of electronic patient care reporting (EPCR) in 2021, the department has begun transitioning to the utilization of EPCR for all medical related calls for service, to provide a more comprehensive and accurate dissemination of statistics.
