| FEE NAME                                           | FEE DESCRIPTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |        |                                                                                                                                                          |
| Base Time for Operating & New Construction Permits | The base time for plan review, permits and inspections is indicated with each permit; <u>additional time to complete the work or review additional system features will be assessed at the hourly rate and added to the base time</u> . Fees shall be calculated on the base hours of completion plus additional time to complete. Fees shall be cumulative.<br><br>Base time 1 hour, rate is <del>\$150</del> \$195, per hour.                                                                    |        |                                                                                                                                                          |
| Permit And Inspection Fees                         | Permit and inspection fees are based on the average time to complete the type of work specified. The minimum time assessments for work will be indicated with each permit requirement in this chapter; additional time to complete the work will be assessed at the hourly rate.                                                                                                                                                                                                                   |        |                                                                                                                                                          |
| After Hours Inspections                            | After-hours inspections shall be billed a minimum 3 hrs. at the hourly rate. Additional time needed to complete the inspection will be billed at the hourly rate. Special Event permits (Pyrotechnic, bonfire, indoor/outdoor assembly, fire performer, vehicle display inside an assembly, amusement building, trade show, and tent) include 3 hours overtime in the permit fee. Additional time required will be billed at the established rate.<br><br>Minimum 3 hours, <del>\$450</del> \$585. |        |                                                                                                                                                          |
| Appeals To the Fire Marshal                        | An appeal form must be filled out in its entirety and accompanied by payment before an appointment will be made for an appeal to the Fire Marshal.                                                                                                                                                                                                                                                                                                                                                 | \$250  | After 2 hours of required staff processing and review time, additional time required may result in an additional fee charged at the hourly rate of \$195 |
| Appeals To the Fire Safety Advisory Board          | An Appeal to the Fire Safety Advisory Board must be made within 30 days of denial of an Appeal to the Fire code official must have been submitted and denied before an appeal to the Fire Safety Advisory Board can be requested.                                                                                                                                                                                                                                                                  | \$50   |                                                                                                                                                          |
| Area Assessment Fee                                | Facilities more than 250,000 square feet (23 225 m²) shall be assessed an additional fee calculated on the total area of the site. The assessment fee shall be calculated in intervals of 250,000 square feet (23 225 m²).                                                                                                                                                                                                                                                                         | Varies | See Table: Area Assessment Fees                                                                                                                          |

|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|----------------------------------------------------------------------------|
| <b>Agro-Industrial, Solid Biomass Facilities and Pallet Yard Assessment Fees</b> | Facilities that store, use, or handle agro-industrial product or pallets represent a special hazard as determined by the fire code official and shall be levied annual assessment fees based on the aggregate quantity of materials. Agro-industrial, solid biomass facilities and pallet yards storing in excess of 3,000 square feet (278 square meters) shall be assessed annual assessment fees                 | Varies; based on material size                               | See Table: Agro Industrial, Solid Biomass, and Pallet Fee Assessment Table |
| <b>Fire Watch and Standby Fees</b>                                               | When fire department personnel are required by this code to stand fire watch, the individual required for providing such service shall pay a 3-hour minimum fee. Additional time needed will be billed at the hourly rate, per person.                                                                                                                                                                              | Minimum <del>\$450</del><br><b>\$585</b> (3 hour)            |                                                                            |
| <b>General Fire Inspection</b>                                                   | A general inspection may be requested and conducted for a fee.                                                                                                                                                                                                                                                                                                                                                      | Minimum <del>\$150</del><br><b>\$195</b> (1 hour)            |                                                                            |
| <b>Investigations Fee</b><br>(Unpermitted Work, construction or operation)       | When the fire code official determines that construction was started or completed without the applicable Fire Prevention permit and the required fees were not paid, an additional fee equal to 300 percent of the cost of the required construction permit and inspection fees shall be assessed for the work.                                                                                                     | 300% of Permit Fee                                           |                                                                            |
| <b>Reinspection Fees</b>                                                         | A reinspection fee may be assessed: 1. Corrections called for are not made or, 2. The items that were identified during the first inspection are not corrected at the time of the reinspection, 3. For failure to provide access on the date for which inspection is requested. 4. Additional inspections required.                                                                                                 | Minimum <del>\$150</del><br><b>\$195</b> (1 hour)            |                                                                            |
| <b>Special Event Late Fees</b>                                                   | Permit applications for bonfires, fire performers, assembly events, vehicle displays, tents and other membrane structures, fireworks and trade shows and exhibitions shall be submitted not fewer than 10 business days in advance of the event. This does not include City of Phoenix holidays. Permit applications submitted fewer than 10 business days in advance of the event shall be assessed a penalty fee. | \$25 Per day within 10 business days of the event inspection |                                                                            |
| <b>Special Hazards</b>                                                           | Facilities represent special hazard as determined by the fire code official shall be assessed an area assessment fee in accordance with Table 8107.1.                                                                                                                                                                                                                                                               | See "Area Assessment Fee Table"                              |                                                                            |
| <b>Technical Report Review Fee</b>                                               | A technical report review, or other test used as the basis of fire design                                                                                                                                                                                                                                                                                                                                           | Minimum <del>\$750</del><br><b>\$975</b> (5 hour)            |                                                                            |
