Consumer Product Recalls

Name of Product:

ESR HaloLock Wireless Power Bank

Hazard:

The lithium-ion battery in the recalled power banks can overheat and ignite, posing fire and burn hazards to consumers

Remedy:

Stop using immediately and contact Waymeet

Recall Date:

August 14, 2025

Units:

About 24,000

U.S. Consumer Product Safety Commission

Structure Type

■ 2023 ■ 2024 ■ YTD

FIRES AND EMERGENCIES

If a battery overheats or you notice an odor, change in shape/color, leaking, or odd noises from a device, stop using immediately. If safe to do so, move the device away from anything that can catch fire and call 911.

Lithium-ion batteries are known to unexpectedly re-ignite minutes, hours, and even days after all visible fire has been put out.

If you observe a lithium-ion battery fire, leave the area, CLOSE the door, and call 911 immediately.

Water and fire extinguishers do not work on lithium-ion battery fires.
