

City of Phoenix Public Meetings

The City of Phoenix is conducting an Analysis of Impediments to Fair Housing Choice (AI)

The AI is a review of barriers that affect the rights of fair housing choice. Public and private policies, practices, and procedures affecting housing choice are examined and serves as the basis for fair housing planning.

This document provides essential information to policy makers, administrative staff, housing providers, lenders, and fair housing advocates, and assists in building public support for fair housing efforts

**As an active City of Phoenix resident,
*your input is needed!***

Input and comments from the public are needed and encouraged! Please plan to attend one of the meetings on fair housing in your area.
