|----------------------|--|
| Issue Date | May 23, 2011. Revised July 2013. |
| Code/Section | Phoenix Building Construction Code, Administrative Provisions, Section 105.2.2 |
| Developed by: | Julie Belyeu, Building Official |
| Approved by: | Technical Review Team |

Interpretation:

A permit is not required for the placement of portable livestock fences of any height used as corrals when the following conditions are met.

1. The corral cannot be placed in any required visibility triangles.
2. The corral does not alter or obstruct any drainage path, retention or detention basin.
3. The corral does not include any electrified components or elements.
