

Neighborhood Notification: Bicycle Improvements on 3rd Street / Frye Road from Chandler Blvd to Desert Foothills Pkwy

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing review of street design provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: 3rd St/Frye Rd from Chandler Boulevard to Desert Foothills Parkway

What: Where there is enough space on the roadway, buffered bike lanes will be added. The number of travel lanes will remain the same. Parking will be removed from one side facing home and one front facing business.

When: Traffic lane improvements are planned for spring 2025.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

Chandler Blvd to Desert Foothills Pkwy

Current Travel Lanes
