

Neighborhood Notification of Bicycle Improvements on 7th Street from Broadway Road to University Drive

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing pavement maintenance program provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: 7th Street from Broadway Road to University Drive

What: Where there is enough space on the roadway, buffers will be added to existing bike lanes. The number of travel lanes will remain the same. The project does not remove or add parking.

When: Pavement maintenance (new asphalt) is planned for Spring 2025 and traffic lane improvements will happen shortly after.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. The slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What are the Changes?

Broadway Rd to north of Broadway Rd

Current Travel Lanes

Proposed Travel Lanes

N/O Broadway Rd to north of Victory Street

Current Travel Lanes

Proposed Travel Lanes

N/O Victory Street to north of Bridge End

Current Travel Lanes

Proposed Travel Lanes
