

The **City of Phoenix Office of Sustainability** is dedicated to enhancing the quality of life for residents through the promotion of sustainable policies and practices, across city operations and the community. Our goal is to help Phoenix become a global leader in sustainability, fostering a more sustainable, resilient, and prosperous future for all. [Learn more about our work!](#)

Help Shape Our Future The City of Phoenix is working hard to reduce greenhouse gas emissions and make energy more accessible for all residents.

The City will host workshops in the new year, to gather feedback from the community, and you are invited to join the conversation!

For details on the **Climate Action Plan** and its workshops, reach out to climate@phoenix.gov.

For information on the **Energy Access Plan** and its workshops, contact energy@phoenix.gov.

Empowering Families with Solar The City of Phoenix teamed up with the Urban Sustainability Directors Network and Solar United Neighbors to help ten Phoenix families go solar at no-cost. All installations are now complete, and these families are seeing lower electric bills.

Learn more about their stories—[watch the video](#).

Stay Cool, Phoenix! Stay cool while bringing the community together! The City of Phoenix and its partners have created Community Cooling Kits to provide relief during outdoor gatherings in the Estrella community.

These kits are available for schools and organizations to borrow for their events, ensuring a comfortable space for everyone.

Reserve your kit today by contacting **Si Se Puede Neighborhood Association** at (602) 908-3660 or **Chicanos Por La Casa** at (602) 399-0064.

Free Sustainability Courses

Looking to build your sustainability skills? The ASU Southwest Sustainability Innovation Engine offers over 30 free, online, self-paced courses to help you grow in the sustainability field.

Simply create a Career Catalyst account, browse the course catalog, and add your favorites to your cart. Use the code SWSIE at checkout to get started—at no cost!

Registration closes on January 31st. [Visit the website and enroll today!](#)

Recycle with Recyclops Recycle plastic bags and film with Recyclops! Phoenix residents can now use this service to recycle these hard-to-recycle plastics, instead of throwing them in the trash.

[Sign up for doorstep pickups and get your first 3 months free.](#)

Volunteer at Water Festivals

Volunteer with Phoenix Water and Arizona Project WET at Water Festivals! Volunteers engage 4th-grade students in four activities. Activity topics include groundwater, watersheds, the water cycle, and water conservation & sustainability.

[Learn more about event dates, locations, and training.](#)

Join Green Business Leaders

Discover how local businesses are making a big impact on our planet! The City of Phoenix Green Business Leader Program celebrates companies that go the extra mile to embrace sustainability while enjoying exclusive benefits.

Join the movement and see how your business can lead the way—[learn more!](#)

Compost Your Christmas Tree

Phoenix residents can drop off live Christmas trees and wreaths for composting at participating parks between **Dec. 26, 2024**, and **Jan. 7, 2025**. Only live trees and wreaths are accepted—no plastic. The trees will be composted at the City of Phoenix Compost Facility.

For more info, contact Phoenix customer service at **602-262-6251** or email solid.waste@phoenix.gov.

Take the Save Water Pledge

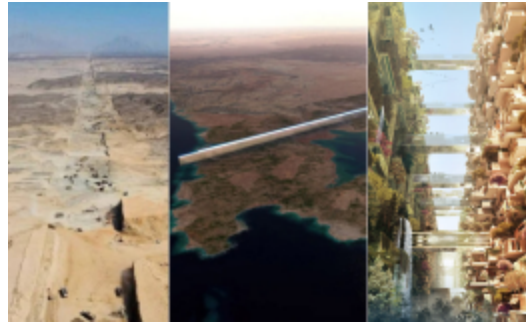

Join City of Phoenix Mayor Kate Gallego in taking the Save Water Pledge! Then, make your efficient and responsible water journey a success using the conservation solutions from the Phoenix Water Services Department.

Use this link to take the pledge: [Take the pledge](#), or [learn more here](#).

The Line: A City of the Future

Introducing The Line, a sustainable city in Saudi Arabia that stretches 170 kilometers. This innovative city towers 500 meters above sea level and is only 200 meters wide, preserving 95% of the land for nature.

With no roads, cars, or emissions, this city will run entirely on renewable energy, prioritizing the health and well-being of its residents.

[Learn more about this bold vision of what cities of the future can be.](#)
